Independent Auditor's Report

To the Board of Trustees
City of Pontiac Police and Fire Retiree Prefunded
Group Health and Insurance Trust

We have audited the accompanying statement of trust net assets of City of Pontiac Police and Fire Retiree Prefunded Group Health and Insurance Trust (a component unit of the City of Pontiac, Michigan) as of December 31, 2007 and the related statement of changes in trust net assets for the year then ended. These financial statements are the responsibility of the board of trustees of City of Pontiac Police and Fire Retiree Prefunded Group Health and Insurance Trust. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of City of Pontiac Police and Fire Retiree Prefunded Group Health and Insurance Trust as of December 31, 2007 and the results of its operations for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and required supplemental information (identified in the table of contents) are not required parts of the basic financial statements but are supplemental information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Plante & Moran, PLLC

Management's Discussion and Analysis

Using this Annual Report

This annual report consists of two parts: (1) management's discussion and analysis (this section) and (2) the basic financial statements. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Condensed Financial Information

The table below compares key financial information in a condensed format between the current year and the prior year:

	Fiscal Year Ended December 31	
	2007	2006
Total assets	\$ 33,198,608	\$ 30,987,445
Total liabilities	1,502,218	1,519,785
Net trust assets	\$ 31,696,390	\$ 29,467,660
Net investment gain	\$ 931,397	\$ 4,477,228
Contributions - Employer	2,908,138	2,799,008
Retiree health benefits paid	1,592,615	1,566,696
Contributions in excess of benefits paid	1,315,523	1,232,312
Ratio of contributions to benefits paid	182.6%	178.7%
General and administrative expenses	18,190	20,474
Net increase in trust net assets	2,228,730	5,689,066

City of Pontiac Police and Fire Retiree Prefunded Group Health and Insurance Trust

Management's Discussion and Analysis (Continued)

Overall Fund Structure and Objectives

City of Pontiac Police and Fire Retiree Prefunded Group Health and Insurance Trust (the "Trust") exists to pay healthcare benefits to members retiring on or after August 22, 1996. Benefits currently being paid are significantly less than contributions currently being received. The excess of contributions over benefits paid will allow for additional funding to increase investment income to a level where the Trust will generate adequate earnings to pay future benefits. The public capital markets represent the primary source of investments.

Asset Allocation

The Trust has established asset allocation policies, which are expected to deliver more than enough investment income over a very long period of time to satisfy the obligations to pay the benefits promised to the members of the Trust. The following is a summary of the asset allocation as of December 31, 2007:

Domestic equities	65%
International equities	15%
Domestic fixed income	20%

Investment Results

In 2007, defaulting sub-prime mortgages triggered a global credit crisis in the summer of 2007. In the aftermath, the equity markets declined, giving back a significant portion of the gains garnered in the first six months. Treasuries rallied as investors sought the safety of guaranteed bonds. The domestic equity market declined as compared to last year. The S&P 500 ended the year up 5.5 percent. The fixed income market, as measured by the Lehman Aggregate Index, returned 7.0 percent for the year. The international index, MSCI EAFE, was down 1.8 percent for the quarter and up 11.2 percent for the year. The total fund returned 2.9 percent for the year.

City of Pontiac Police and Fire Retiree Prefunded Group Health and Insurance Trust's total fund return must always be considered in a longer-term context. The asset allocation of each fund is built upon the foundation that the obligations of the Trust to pay the benefits promised to members and retirees are very long-term obligations. Accordingly, the board of trustees must make investment decisions that it believes will be the most beneficial to the Trust over many years, not just one or two years.

City of Pontiac

Police and Fire Retiree Prefunded Group Health and Insurance Trust

Notes to Financial Statements
December 31, 2007

Note 1 - Summary of Significant Accounting Policies

The City of Pontiac (the "City") has established an irrevocable prefunded group health and insurance trust fund for health, optical, dental, and life insurance benefits for retirees who are members of the Police and Fire Retirement System of the City of Pontiac and who retired on or after August 22, 1996. City of Pontiac Police and Fire Retiree Prefunded Group Health and Insurance Trust (the "Trust") was created as an Internal Revenue Code 501(c)(9) Trust (VEBA). The Police and Fire Retirement System (the "Retirement System") performs the Trust's accounting function.

Reporting Entity - The Trust is a component unit of the City of Pontiac, Michigan. The Trust does not hold securities of or loans to the Retirement System.

Basis of Accounting - The City of Pontiac Police and Fire Retiree Prefunded Group Health and Insurance Trust's financial statements are prepared using the accrual basis of accounting. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Insurance costs are recognized when due and payable in accordance with the terms of the Trust.

Investments - Investments are reported at fair value. Money market funds and mutual fund investments are valued at net asset value. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis. In accordance with the policy of stating investments at fair value, net unrealized appreciation or depreciation for the year is reflected in the statement of changes in trust net assets.

Federal Income Taxes - The Trust is exempt from income tax under Section 501(a).

City of Pontiac

Police and Fire Retiree Prefunded Group Health and Insurance Trust

Notes to Financial Statements
December 31, 2007

Note 2 - Investments

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) authorizes local governmental units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The local unit is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications, which matures not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions, which are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The retiree healthcare fund is also authorized by Michigan Public Act 314 of 1965, as amended, to invest in certain reverse repurchase agreements, stocks, diversified investment companies, annuity investment contracts, real estate leased to public entities, mortgages, debt or equity of certain small businesses, certain state and local government obligations, and certain other specified investment vehicles.

The Trust has designated one bank for the deposit of its funds. The investment policy adopted by the board in accordance with Public Act 196 of 1997 has authorized investment in mutual or commingled funds, but not the remainder of state statutory authority as listed above. The Trust's deposits and investment policies are in accordance with statutory authority.

The Trust's cash and investments are subject to several types of risk, which are examined in more detail below:

Interest Rate Risk

Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The Trust's investment policy does not restrict investment maturities. At year end, the average maturities of investments are as follows:

<u>Investment</u>	<u>Fair Value</u>	<u>Effective Duration</u>
Mutual fund	\$ 6,225,556	4.1 years

City of Pontiac **Police and Fire Retiree Prefunded** **Group Health and Insurance Trust**

Notes to Financial Statements
December 31, 2007

Note 2 - Investments (Continued)

Credit Risk

State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The Trust has no investment policy that would further limit its investment choices. As of year end, the credit quality ratings of debt securities (other than the U.S. government) are as follows:

Investment	Fair Value	Rating	Rating Organization
Mutual fund	\$ 6,225,556	AA	S&P

Foreign Currency Risk

Foreign currency risk is the risk that an investment denominated in the currency of a foreign country could reduce its U.S. dollar value as a result of changes in foreign currency exchange rates. The system places no limit on the amount of international stock funds. The following securities contained within the international stock fund are subject to foreign currency risk:

	Fair Market Value
Japanese Yen	\$ 1,022,719
British Pound	584,613
French Franc	520,074
Swiss Franc	347,187
German Deutchemark	344,832
Mexican Peso	242,607
Dutch Guilder	182,309
S. African Comm Rand	116,357
Norwegian Kroner	106,936
Other	1,243,185

City of Pontiac

Police and Fire Retiree Prefunded Group Health and Insurance Trust

**Notes to Financial Statements
December 31, 2007**

Note 3 - Trust Contribution Information

The Trust is funded by employer contributions. The trustees voted to implement funding at the actuarial recommended rate beginning July 1, 2006. As of December 31, 2005, an updated actuarial valuation was performed which recommended an employer contribution of 22.85 percent of police and fire wages. The City funded at this rate for the fiscal year ended December 31, 2007.

Note 4 - Trustees

Two trustees of City of Pontiac Police and Fire Retiree Prefunded Group Health and Insurance Trust as of December 31, 2007 were elected by the membership to sit by virtue of their position and one is appointed by the other trustees.

Note 5 - Postemployment Benefits

Plan Description - The City provides retiree healthcare benefits to eligible employees and their spouses through the City of Pontiac General Employees' Retiree Health and Insurance Benefits Trust. This is a single employer benefit plan administered by the City of Pontiac General Employees' Retirement System.

The plan's financial statements are included in the City of Pontiac's financial report and can be obtained by writing to 47450 Woodward Ave., Pontiac, MI 48342. In order to be compliant with the Governmental Accounting Standards Board's recently released Statement Number 43, *Financial Reporting for Post Employment Benefit Plans Other Than Pension Plans*, the following information is required to be reported.

Funding Policy - The City is required by ordinance to contribute on a percent of covered payroll which the trustees have deemed to be based on actuarial recommended amounts. During the year, the City contributed \$2,908,138 into the trust which is reported in the City's financial statements as a pension and other employee benefit trust fund.

City of Pontiac

Police and Fire Retiree Prefunded Group Health and Insurance Trust

Notes to Financial Statements
December 31, 2007

Note 5 - Postemployment Benefits (Continued)

The funding progress of the plan as of the most recent valuation date is as follows:

Actuarial value of assets	25,534,993
Actuarial accrued liability	79,788,465
Unfunded AAL	54,253,472
Funded ratio	32.00%
Annual covered payroll	12,831,719
Ratio of UAAL to covered payroll	23.65%

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend.

Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented above, presents information about the actuarial value of plan assets relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the December 31, 2006 actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 7.5 percent investment rate of return compounded annually (net of administrative expenses), which consists of a real rate of return of 3.0 percent per year plus a long-term rate of inflation of 4.5 percent per year. The valuation did not include specific assumptions related to healthcare cost increases. The actuarial value of assets is set to equal fair market value. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at December 31, 2006 was 30 years.

Report on Internal Control

To the City of Pontiac Boards
City of Pontiac Retirement and Retiree
Health Care Systems

Dear Trustees:

Beginning with the audit of City of Pontiac's Retirement and Retiree Health Care Systems (the "Systems") for the year ended December 31, 2007, national auditing standards require auditors to communicate matters to the governing body that may be useful in its oversight of the Systems' financial management. Specifically, we are required to report internal control issues to the governing body that may be relatively minor, in order to allow you to evaluate their significance and make any changes you may deem appropriate. In general, some of these items may have been discussed orally with management in the past.

In planning and performing our audit of the financial statements of the Systems as of and for the year ended December 31, 2007, in accordance with auditing standards generally accepted in the United States of America, we considered the Systems' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Systems' internal control. Accordingly, we do not express an opinion on the effectiveness of the Systems' internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified a deficiency in internal control that we consider to be a significant deficiency.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We believe that the following deficiency constitutes a significant deficiency:

To the City of Pontiac Boards
City of Pontiac Retirement and Retiree
Health Care Systems

During inquiries made of System personnel while performing required audit procedures, Plante & Moran, PLLC learned of benefit payment expenditures related to the Police and Fire VEBA Trust that were incurred in the current year; however, they were not yet recorded in the general ledger. A journal entry was subsequently prepared by System personnel during the audit. The System has a process in place to properly identify benefit payment expenditures. This process would have identified the underreporting in the subsequent period.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We did not identify any deficiencies that constitute a material weakness.

This communication is intended solely for the information and use of management, the board, and others within the organization and is not intended to be and should not be used by anyone other than these specified parties.

Plante & Moran, PLLC

June 20, 2008

Results of the Audit

To the City of Pontiac Boards
City of Pontiac Retirement and Retiree
Health Care Systems

We have audited the financial statements of City of Pontiac Retirement and Retiree Health Care Systems (the "Systems") for the year ended December 31, 2007 and have issued our report thereon dated June 20, 2008. Professional standards now require (beginning with the audit of the year ended December 31, 2007) that we provide you with the following information related to our audit.

Our Responsibility Under U.S. Generally Accepted Auditing Standards

As stated in our engagement letters dated April 15, 2008, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. We are responsible for planning and performing the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement. As part of our audit, we considered the internal control of the City of Pontiac Systems. Our consideration of internal control was solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures specifically to identify such matters and our audit of the financial statements does not relieve you or management of your responsibilities.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in letter form and also in our discussion with Trustee Cochran about planning matters during the month of May 2008.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Systems are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the fiscal year ended December 31, 2007. We noted no transactions entered into by the Systems during the year for which there is a lack of authoritative guidance or consensus.

There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. There were no sensitive estimates affecting the financial statements.

The disclosures in the financial statements are neutral, consistent, and clear. Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. There are no sensitive disclosures affecting the financial statements.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For the purpose of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

To the City of Pontiac Boards
City of Pontiac Retirement and Retiree
Health Care Systems

Management's Representations

We have requested certain representations from management that are included in the management representation letter dated June 20, 2008.

Management's Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the organization's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

In the normal course of our professional association with the organization, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, business conditions affecting the organization, and business plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition of our retention as the organization's auditors.

This information is intended solely for the use of City of Pontiac boards of trustees and management of the City of Pontiac Systems and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Plante & Moran, PLLC

Beth A. Bialy

Wendy N. Trumbull

Other Comments and Recommendations

Other Comments and Recommendations

In addition, we offer the following matters as a result of our audit for your consideration:

Board Approval of Pension Payments

During benefit payment testing for the Police and Fire Retirement System, it was noted that a monthly pension payment being made to one participant (who had been a participant since 2006) never received board approval. Although there are procedures in place to obtain board approval for pension payment amounts to new participants, those procedures were not followed in the instance of this participant. We did not note any exceptions whereby members were receiving amounts different than that prescribed in the plan ordinance; however, we encourage the Systems to ensure that the procedures in place to obtain board approval for pension benefit payment are operating as intended on a consistent basis to ensure the propriety of payments to plan participants.

Alternative Investments

During our review of the current year board minutes for the retirement Systems, we noted many discussions concerning alternative investments. In the past, with the exception of the CAP investments, the Systems have only invested in publicly traded vehicles. As the Systems get larger, it is not unusual for them to add alternative investments to their portfolio. We suggest that the Systems fully review these investment opportunities and follow an established, formal due diligence process to document items such as the following:

- Assertions made by managers of the investments
- A detailed and independent analysis of financial projections
- A summarization of the reasons why the particular investment meets the Systems' investment objectives

Once an investment has been entered into, the agreement should be very clear regarding periodic reporting, annual audits, etc. Alternative investments can present challenges with respect to obtaining sufficient appropriate audit evidence in support of the existence and valuation assertions because of the lack of a readily determinable fair value for these investments and the limited investment information generally provided by the managers of the investments. Some of the processes that should be documented for audit purposes include:

- Documentation of management site visits or telephone calls
- Review by the Systems of periodic statements from the fund or trustee reflecting investment activity. This review should be very comprehensive and address discrepancies between actual performance and the performance set forth in earlier financial projections.

- Controls in place related to periodic draws and whether they meet an established timetable or have otherwise been deemed appropriate
- Use of an investment adviser to monitor the alternative investments, including the underlying investments, and/or to monitor markets or market indicators and their effect on the estimated fair values of the Systems' investment
- The availability of audited financial statements for the alternative investments and whether such statements are as of the same date as the Systems' financial statements, the timing of when such audited financial statements become available, and whether the audits are conducted by qualified and reputable independent audit firms

Document Storage

As mentioned in the past, the Systems are responsible for keeping many important documents and records that often cannot be recreated (i.e., board minutes, member files, financial records, etc.). Given the very limited space allocated to the Systems' offices, it is difficult to provide adequate storage. It is imperative that the Systems maintain storage space that is not only well organized, but is also secure and fireproof. We recommend that the Systems review their current operating space and document storage facilities in an effort to improve conditions in order to ensure the safety of the related records.

In the past, we have suggested looking into document imaging and understand the Systems have begun to research various options as they relate to different imaging systems. Document imaging would mitigate the need to retain paper files for extended periods. Documents would instead be scanned to create an electronic backup. Document imaging, while not necessarily a new technology, is being used increasingly as a means to provide a safe and effective back-up solution while maximizing space limitations.

We also continue to suggest that the Systems should consider various aspects of disaster recovery. If there were a fire or other catastrophe and the paper records and/or computer system were destroyed, the Systems should have a disaster recovery plan in place.

We would like to thank you and your staff again this year for your preparedness, cooperation, and assistance provided during the audit. If you have any questions, or would like to discuss these items further, please feel free to contact us at your convenience.
